^{a-e} Means within a column with different superscripts are significantly different according to Tukey's honestly significant difference test (P -values < 0.05).

¹ ***: $p < 0.001$, **: $p < 0.01$; *: $p < 0.05$, t: $p < 0.1$, ns: $p > 0.1$.

Figure S1. Interaction means for the concentration of saturated fatty acids (SFA), Lauric acid (C12:0), Myristic acid (C14:0), Palmitic acid (C16:0) in milk fat and the respective Athrogenicity (AI) and Thrombogenicity (TI) indices of milk for from different management systems and sampling months. Semi-intensive management system is represented by (◆) and extensive management system by (◇). J:January, F:February, M:March, A:April, M:May, J:June. Values with different, capitalized letters represent statistically significant differences between the two management systems (P -value<0.05). Values with different lowercase letters represent statistically significant differences between months within the same system.

Figure S2. Interaction means the concentration of monounsaturated fatty acids (MUFA), polyunsaturated fatty acids (PUFA), Vaccenic acid (C18:1trans-11) and CLA cis-9,trans-11 in milk and oleic acid (C18:1 cis-9) fat for the different management systems and sampling months. Semi-intensive management system is represented by (◆) and extensive management system by (◇). J:January, F:February, M:March, A:April, M:May, J:June. Values with different capital letters represent statistically significant differences between the two management systems (P -value < 0.05). Values with different lowercase letters represent statistically significant differences between months within the same system.

Figure S3. Interaction means for omega-3 PUFA (omega-3), omega-3 to omega-6 ratio, a-Linoleic acid (C18:3cis9.cis12.cis15; ALA), Eicosapentaenoic acid (C20:5omega-3; EPA), Docosapentaenoic acid (C22:5omega-3; DPA) and Docosahexaenoic acid (C22:6omega-3; DHA) for the different management systems and sampling months. Semi-intensive management system is represented by (◇) and extensive management system by (●). J:January, F:February, M:March, A:April, M:May, J:June. Values with different capitalized letters represent statistically significant differences between the two management systems (P -value<0.05). Values with different lowercase letters represent statistically significant differences between months within the same system.
